Responses **must** be entered and submitted through the online application portal at [www.solarpowerworldonline.com/top-solar-contractors-application](http://www.solarpowerworldonline.com/top-solar-contractors-application).

## Solar Service Definitions

**Developer** – A company that secures financing for solar installations, often owning the result, and may or may not build the project, sometimes contracting with local EPCs.

**EPC** – Responsible for the engineering, procurement and construction of solar projects. Often the primary contractor and will sometimes appoint subcontractors to do aspects of installation or electrical work.

**Installer** – A solar installer that works primarily on either residential or commercial rooftop installations or other small-scale systems.

**Electrical Subcontractor** – A company that performs specialized work related to the installation of electrical systems, often under contract with the developer or EPC.

**Installation Subcontractor** – A company that often works under a developer or EPC on a specific aspect of a solar array, such as pile driving or panel installation only.

**Sales Partner** – A company that only handles the sales process (usually within the residential market) and hands off the installation to a reputable installation partner.

Please choose all services your company completes in-house (and does not sub out): \*

- Sales  Financing  Development/Design  
 Installation  Electrical work

What is the primary service your company offers? \* (Select one.)

- Developer  EPC  Installer  
 Electrical Subcontractor  Installation Subcontractor  Sales Partner

Please choose all markets you serve: \*

- Utility  Commercial/Industrial (C&I)  Residential  Off-Grid

Primary market served: \* (Select one.)

- Utility  Commercial/Industrial (C&I)  Residential  Off-Grid  Both Residential and Commercial\*

For the following questions, please enter only solar PV installed in the United States in kilowatts.

**\*\*Global installations are not accepted; only installations within the borders of the United States and its territories.**

**\*\*O&M/post-installation-serviced kilowatts are not accepted. This is a development/construction list only.**

**\*\*Projects must be completed and/or approved to operate before Dec. 31, 2021.**

For reference: 1 MW = 1,000 kW  
Please round decimals to nearest hundredth.

Total kilowatts (DC) installed since company's founding: \* \_\_\_\_\_ kW

Total kilowatts (DC) installed in 2021 only: \* \_\_\_\_\_ kW

**OPTIONAL**

Total kilowatt-hours (kWh) of storage capacity installed with solar projects in 2021 only: \_\_\_\_\_ kWh

Is at least one of the company's principals certified by NABCEP? \*  Yes  No

Who is your preferred manufacturer/supplier of the following: (Optional)

Modules: \_\_\_\_\_

Inverters: \_\_\_\_\_

Racking/Mounting: \_\_\_\_\_

Energy Storage: \_\_\_\_\_

Design Software: \_\_\_\_\_

Distributor: \_\_\_\_\_
